Subject: CE Consultation for, the Mortgage Broker Sector

CE is well and good, but without testing it doesn't ensure the participant(s) actually comprehend the material. I refused to renew my AMP designation for this very reason, preferring to pursue my FICB instead.

I have attended CE presentations where half of the participants disappeared after the break, and still received CE credits, just for attending. The online CE courses I have done are tested - why are they not in live presentations?

Please note that I have been in the industry since 1976, going back to my banking days.
